

Property rights are a cornerstone of economic development and social justice. One fundamental way of understanding their strength is to ask people how secure they feel in these rights.

### 1 LEVELS OF INSECURITY

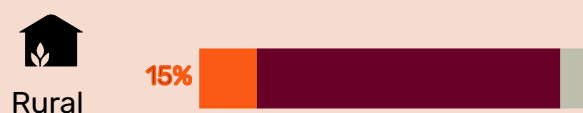

The percentage of the adult population that feels insecure in their property rights

Secure Insecure No Answer

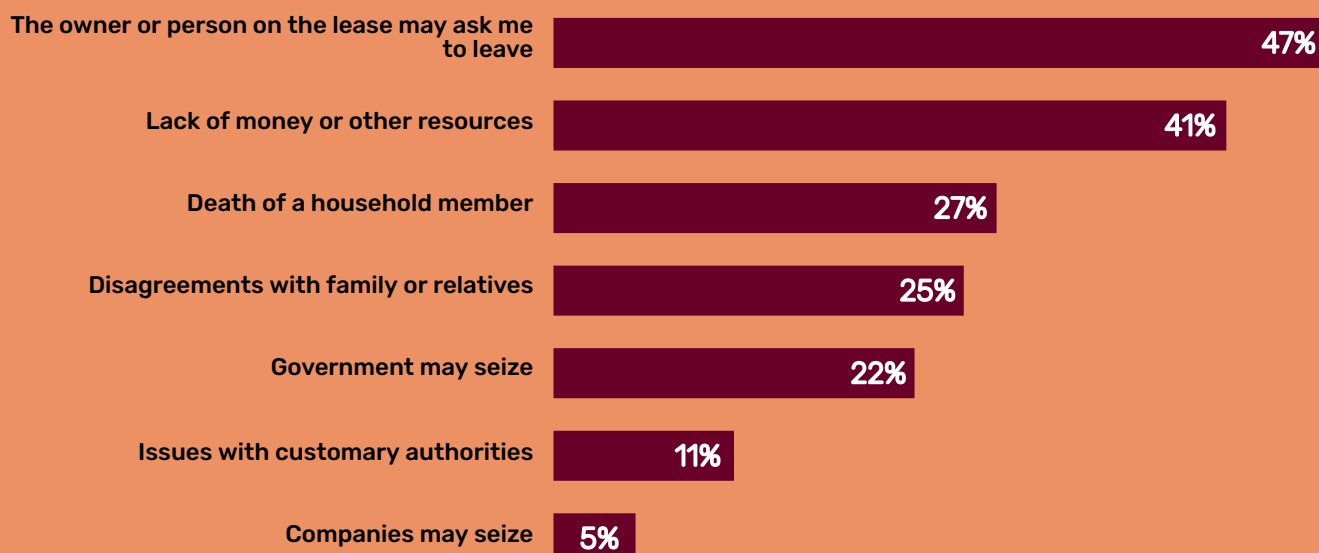

### 2 WHO FEELS INSECURE

Insecurity by gender, population density, or tenure type

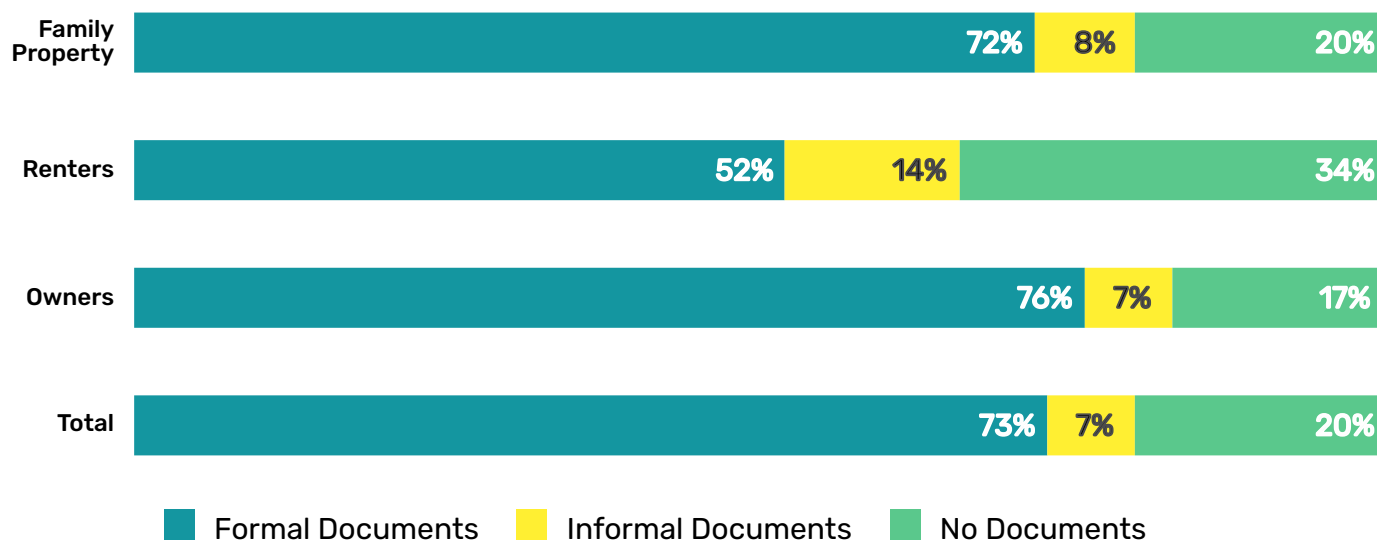

Insecure Secure No Answer

### 3 WHY PEOPLE FEEL INSECURE The reasons cited by those who feel insecure

### 4 DOCUMENTATION Types of property documentation held by people, broken down by tenure arrangements

**Methodology** A nationally representative sample of adults 18 years or older in Myanmar were asked about their perceptions and experiences with property rights and tenure security. For the full list of which documents are considered as Formal Documents and Informal Documents in Myanmar please visit [www.prindex.net/documentation](http://www.prindex.net/documentation)

**Prindex** is a global survey measuring perceptions of land and property rights. By developing a deeper understanding of how they work in practice, Prindex is helping build a world where everyone feels secure in their right to their home and land.
